SPRITE+ Virtual Sandpit Application Form

Applications are invited from SPRITE+ Members and Expert Fellows to join our online Sandpit on **Future Digital Identity** in January 2023. Up to £160k of SPRITE+ funding will be made available to fund interdisciplinary projects arising from this sandpit.

Sandpit participants will explore and develop interdisciplinary projects from scratch that tackle issues relating to future opportunities and challenges in:

- Establishing identity (broadly defined) in digital contexts
- Verifying identity across digital systems and contexts
- Understanding how identities can be forgotten or disappear

Novel project ideas will be co-created by sandpit participants from scratch. Applicants should demonstrate their relevant skills and approach to participating in the sandpit rather than their research and/or publication track record.

Up to 30 participants will be selected to take part in the sandpit. Applicants from academia are welcomed at any stage of their research career if they meet [UKRI eligibility requirements](#) to receive grant funding. Selected applicants from academia should inform their University Research Office in advance of the event that they are going to attend the sandpit. If they are part of a successful project their institution will be required to fund 20% of the fEC project costs (as standard).

Please note that the information you provide in sections 1, 2, 3 and 6 may be shared with other participants prior to the sandpit.

For full details including selection criteria, please see the [call document](#) and list of [FAQs](#) on the SPRITE+ website. FAQs will be updated until 19 October 2022.

Notes

- Please submit this form by **24 October 2022** to admin@spritehub.org.
- Successful applicants will be notified by 2 December 2022.

Commented [EB1]: Add URL for call doc

Commented [EB2]: Same URL but page needs to be updated
