

SPRITE+ Newsletter: April 2023

SPRITE+ Conference - Registration Reminder- Early Bird deadline 30 April

28-29 June 2023, Titanic Belfast.

Don't miss the opportunity to attend this event, where we will gather together to share insights, engage in discussions and network with our peers.

We have an exciting programme set up which will include talks from Expert Fellows, community members and early career researchers, as well as our sandpit-funded projects, and thematic workshops. This is in addition to our confirmed **keynote speakers** - Professor Ciaran Martin and Professor Gina Neff. Professor Ciaran Martin, CB, is a Professor of Practice at the Blavatnik School of Government at the University of Oxford, as well as a managing director at Paladin Capital and the holder of several other advisory roles in private sector cyber security; and Professor Gina Neff is the Executive Director of the Minderoo Centre for Technology & Democracy at the University of Cambridge. Her research focuses on the effects of the rapid expansion of our digital information environment on workers and workplaces and in our everyday lives.

For more information about the conference and to **register**, please visit our conference pages on [SPRITEHub](#).

An announcement from our Expert Fellow Santosh Vijaykumar

The Cognitive and Health Infodemics Research Programme (CHIRP | www.chirpresearch.org) is a research group at Northumbria University that advances interdisciplinary research in misinformation and disinformation, and catalyses conversations between academics, policy and practice partners. CHIRP's members include researchers with expertise in public health, communication, HCI, psychology, computing and information science and business. We welcome members of the SPRITE Community to engage with us on collaborative research, grant writing and expert talks.

Contact: santosh.vijaykumar@northumbria.ac.uk.
